

TABLE I
BRBW Summary of Proposed Design Options
Reduction of Wetland/Floodplain and Other Impacts
Sections 3, 4 and 5

<u>Proposed Design Options*</u>	<u>LF **</u>	<u>Location</u>
At-Grade (ground level and below 10yr. flood)	4,000	Aquarion Water, Riverbend Farm and Rod and Gun Club (Northbridge)
Reduced Width:		
10' Path w/2' shoulders	17,000	Various locations
8' Path w/2' shoulders	4,500	Goat Hill, Heritage State Park
8' Path w/0' shoulders (incl. cantilever struct.)	300	Adjacent to Blackstone River/Grafton Street, Millbury
6' Walk Trail + 10' Path w/2' shoulders	4,000	Plummer's Landing/Trail
Reduced/Lower Profile (above 10yr. Flood)	11,000	Adjacent to P&W RR; Wassenar Prop. (Uxbridge)
Retaining Walls	14,000	Various w/walls on one or both sides of path
Bridges (19 bridges)	2,000	Various locations
Elevated Structure (Bikeway on piers)	7,000	Various locations
Turtle Tunnel Access under Path	4,500	Plummer's Trail Area

* Full Width: 10' Path w/3' shoulders is the desired standard and is proposed in non or lesser impact areas

* Represents approximate length of Bikeway where proposed option may be employed.

** Some options also may be included as part of others e.g. retaining walls and reduced width paths
